

Y6 Transitions Buddies

Get ready for High School this summer!

Boost Salford, our children's emotional health and well-being project, is teaming up with NCS over the summer to support year 6 pupils with their transition up to high school.

We're going to be hosting fun and informative virtual sessions for one hour every week over the summer holidays. We will pair you up with a 'buddy' who has just finished year 10 or 11 at the high school you're about to go to*, then we'll give you activities to complete together that are all about what it's like at high school.

Our year 10 and 11 buddies will be really kind and helpful, and will be able to tell you anything you need to know about high school – from what school lunches are like, to how to keep yourself organised. Your buddy has signed up because they want to help you!

How it works

You'll be invited to a big group Zoom at the same time each week, you'll all be given instructions for the activities that you and your buddy will complete together, then you and your buddy will go into a 'breakout room' to complete the activities. Our Salford Foundation staff will be around in the call to pop in and out of your breakout room if you need any help. We will ask parents to be around in the background of the call too.

Parents and guardians

If your child would like to be involved, please contact Katie Taylor by **17/07/2020**
Katie.taylor@salfordfoundation.org.uk / 07957 259 766

I will need to know: your name, your child's name, your child's Primary School, your child's Secondary School and your preferred days (if any).

*we will try our very best to match up buddies from the same high school. There may be cases there this isn't possible – however we've found that the sessions are still very helpful even when they've attended a different school.
